Professional Experience

Accruent, LLC - Austin, TX
Associate Software Engineer, 6/13 to 7/14 *(1 year & 1 month)*
Coding, testing and implementing products for Accruent's flagship real estate performance management suite using ASP.NET MVC and WebAPI in C#, with HTML5, CSS3, JavaScript/jQuery, Bootstrap, and Kendo UI. Responsibilities included reviewing technical requirements, working in the agile development process, responsive, mobile-first design and integrating legacy code.

Selected Achievements:

- Led, by own initiative, a team of developers representing each of Accruent's products in drafting the company's first-ever coding standards
- Peer-to-Peer award in 6/14 for work during company's innovation week

Education

Eckerd College, St. Petersburg, FL
BA in Computer Science, Graduated 5/13, 3.37 GPA
Liberal Arts education with an emphasis on logical analysis, leadership, oral & written communication skills and creative, self-critical thought. Minors in Philosophy and Theatre.

Additional Experience

- Active member in Austin's improvisational theater community, including mainstage performances at the Institution Theater.
- Gigging songwriter, manager & performer in Austin's local music scene
